ANIMAL MAGNETISM cannot be denied...

The Animal Magnetism collection from Keleen Leathers is chic and stylish yet elegant and luxurious. Created for those with superior taste, this line offers both natural and stenciled hair-on cowhides along with multiple styles of rugs custom fabricated by Keleen. Definitely something for everyone!

Animal Magnetism is broken into three categories:

**Natural Beauty:**
Natural hair-on cowhides featuring gorgeous, unaltered colors and markings

**Nature’s Stage:**
A collection of rugs beautifully and tastefully sewn into various styles and patterns

**Wild Life:**
Stenciled animal print hair-on cowhides in WILD animal print patterns

Please remember that the entire Animal Magnetism collection is comprised of natural products. Color, markings of nature, and hide size will vary from hide to hide. As a product of nature, this is to be both expected and embraced.

As are all Keleen Leathers products, the entire Animal Magnetism collection is a by-product of the food industry.

Natural Beauty describes the look of hides which are unaltered by anything but the kiss of nature. Each hide will vary in markings, shape, size, and color as no two are exactly the same making them even more desirable. These unique characteristics add Natural Beauty and a certain degree of interest to each hide.
Though all hair-on hides in their natural shape are perfect for both rugs and upholstery, *Nature’s Stage* is a line consisting of hair-on hides which are cut and sewn into beautiful shapes and patterns to adorn any space. *Nature’s Stage* rugs can be made with natural, stenciled and/or solid dyed hair-on hides. Finished leather is also an option for borders. In addition, a natural shearling rug was added to the line because it was simply too soft, too gorgeous, and too unique to pass up.

Though standard sizing and pricing is offered, rugs can be custom made to any specification.
Silk screened hair-on cowhides make up Wild Life. In wild patterns and colors these eye-catching prints add amazing flair! Rugs, ottomans, pillows, headboards, and/or anything imaginable, the possibilities are absolutely endless!
